Tools

- Use: Group Communication

- Use: Kanban

- Use: Initial Compilation of data

- Use: Database

Tools

- Use: Easily create modules, quizzes, etc.

- Use: Site hosting

- Use: Automated testing

Methodology

- Used the Agile methodology as a basis, but scheduling turned more waterfall-esque over time.
- Iterative method also meshed in there.

Challenges

- Hard to find times for everyone to meet.
- Tools we were not exposed to beforehand were difficult to learn (for example, Google Cloud Compute)
- Fitting the automated testing with the WordPress site.
